PROFESSIONAL SUMMARY

MBA (Business Analytics) candidate who builds analytics end to end — Power BI dashboards on star-schema models, predictive models in Python, and primary research at scale. Four projects published and documented on GitHub.

CORE SKILLS & TOOLS

Business Intelligence: Power BI, DAX, Power Query, Tableau, Advanced Excel, Data Modelling (Star Schema)

Data & Programming: SQL, MySQL, Python, Pandas, Scikit-learn, SciPy, SPSS, ETL, Data Cleaning, EDA

Business Analysis: Requirements Gathering, Business Process Mapping, KPI Reporting, Stakeholder Interviews, Primary Research

WORK EXPERIENCE

Business Analytics & Strategy Intern | Kritavin Private Limited Jun 2026 – Jul 2026

- Analysed operational data to surface actionable patterns, turning open-ended business questions into defined analyses.
- Delivered data-driven operational insights and strategy recommendations; commended by the Director.

Operations & Accounts Assistant | K.C. Dhyani Catering Service Jan 2024 – Dec 2024

- Introduced UPI and digital payment channels, opening the business to cashless customers and contributing to an approximate **15% increase in revenue**.
- Managed inventory data in Excel; handled GST invoicing, expense tracking and GeM tender documentation.

KEY PROJECTS

Capital Structure & Performance Dashboard | Power BI · DAX · Power Query · Python

- Analysed leverage and profitability across **226 large-cap companies**; cleaned financials in Python and modelled a star schema with five DAX measures.

Sales & Inventory Analytics Dashboard | Power BI · MySQL · DAX

- Built a three-page report on a live MySQL database. Surfaced customer concentration risk (two clients $\approx$ 15% of payments) and inventory misaligned with demand — 555K units in stock against 106K sold annually.

Predictive Lead Scoring Model | Python · Scikit-learn · Pandas

- Cleaned a **9,240-record** lead dataset and trained a logistic regression scoring model at **$\sim$ 91% accuracy, 0.97 ROC-AUC**; recommended a cutoff of 65, projecting $\sim$ 80% conversion on contacted leads.

Inventory & Supplier Reliability Optimiser | Python · SciPy · Tableau

- Modelled safety stock across **12,000 order lines** using a dual-variability formula, separating supplier risk from demand volatility.

Socio-Cultural Assimilation Research | Student researcher · University of Delhi

- Surveyed 500+ students and interviewed 35 faculty on an IQAC-funded study. Found a stakeholder contradiction: faculty reported no curriculum problem while **78.9%** of students reported difficulty in English.

ACHIEVEMENTS

- Innovation Ambassador** (2025–26) — MoE's Innovation Cell & AICTE; 21 sessions of IA training.
- Team Leader**, Promulgate National Case Analysis Competition — Asian Business School, Noida (2026).
- Presented research paper, "Ethics of Creativity in the Age of Artificial Intelligence" — National Seminar, K.L. Mehta College (2026).
- Outstanding Volunteer** — ISACA New Delhi Chapter Annual Summit (2025).

EDUCATION

MBA, Business Analytics — SGPA 9.17/10 (Sem II) | Manav Rachna University 2025 – 2027

B.Com (Program) — CGPA 8.23/10 | University of Delhi 2020 – 2023

Senior Secondary (AISSCE) — 92.4% | St. Mary's Public School 2020

CERTIFICATIONS

Agile Business Analysis | Digital Business Analysis | Business Process Mapping | Power BI: Top Skills | MySQL for Data Analysis | Data Visualisation & Storytelling — LinkedIn Learning | MS Excel using AI — OfficeMaster | NISM Financial Literacy — Kotak (90%)

Languages: English (Fluent), Hindi (Fluent), Japanese (Beginner)
